These activities can all take place on the estate of North Cadbury Court

Archery £35.00 person up to a ceiling of £550.00 (min No 12)

We teach bare bow, by far the most natural way to shoot, it is all about body positioning. If your body is in the right position, the arrows will go where you look. We can teach 6 at a time in rotation so, larger groups can stay together and the time between having a turn is minimal. For a group of up to 24, I would allow a minimum of 2 hours for us to turn you all into Robin Hoods.

Real Clay Shooting £55.00 per person (min No 8)

We shoot with 12 and 20 bore shotguns using a light load to cut down the recoil. Fine for both experienced and beginners, girls and boys. We start you off in rotation with 5 single clays so that the instructor can access and assist you. Then we move you onto 5 pairs in the sky and finish with a competition between everyone of another 5 pairs.

The sessions last about 2.5 hours.

If there is a large group then we would split you into groups and provide extra instructors, finishing with a competition between the winners of each instructors' groups.

CO2 Pistols £35.00 per person up to a ceiling of £550.00 (min No 8)

The Pistols we use are Walther CP88's. These have a CO2 gas cylinder in the grip and are not toys. They fire a magazine of 8 pellets of .177 caliber.

We start you off with paper targets so you can have the basic training and get used to the pistols. Then you will shoot several drop-down steel targets as a competition. 5/6 people can shoot at a time on the paper targets but on the competition, for safety, we do that 1 at a time. Allow 2 hours per 10 participants.

The teaching level is high for all activities, and we aim to turn you all into Robin Hood's or potential Bank robbers by the time we finish.

In the current climate we would kindly request a contribution to travel and PPE of £50.00 per event, added to the cost and hope that is acceptable.

COVID

Gels and hand wipes will be readily available.

For Clay pigeon shooting only disposal earplugs will be used.

It is important that clients have every confidence that their activity suppliers are taking as many additional precautions as practical to keep both clients and their own teams as safe as possible, without diminishing the overall enjoyment of the experience.
